

This guide explains how to install and uninstall ActiveTick Platform.

## To install ActiveTick Platform:

Step 1. Download ActiveTick Platform to your computer:

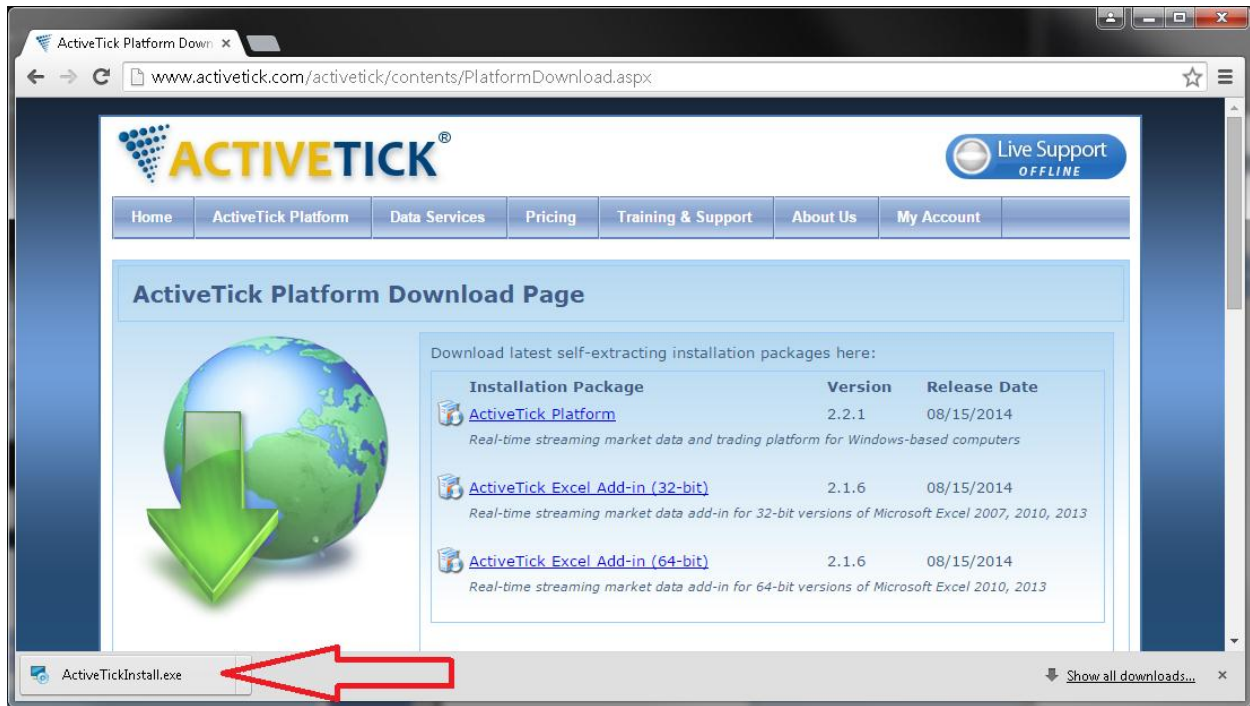

Latest Platform installation package can be downloaded from ActiveTick's website using the following link: <http://www.activetick.com/activetick/contents/PlatformDownload.aspx>

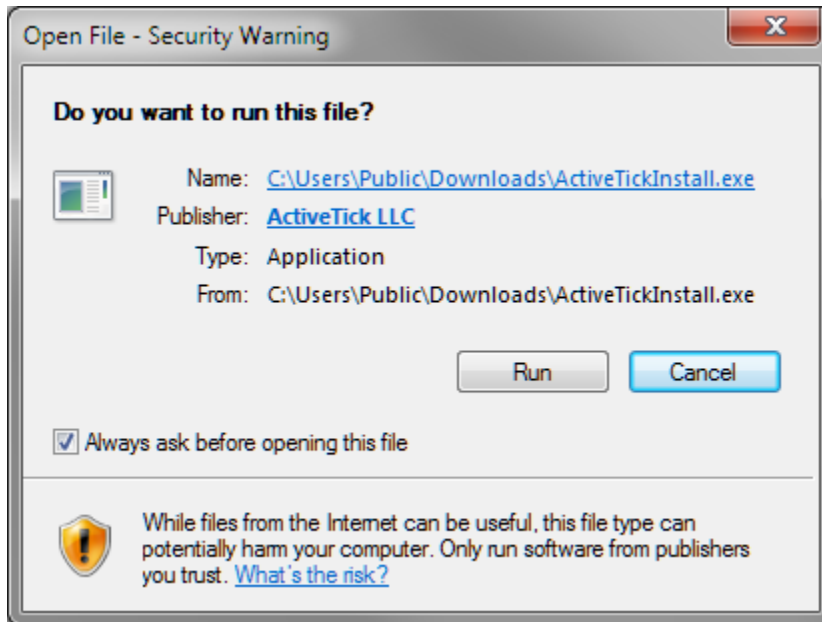

The screenshot shows a web browser window with the URL [www.activetick.com/activetick/contents/PlatformDownload.aspx](http://www.activetick.com/activetick/contents/PlatformDownload.aspx). The page features the ActiveTick logo and a navigation menu with links for Home, ActiveTick Platform, Data Services, Pricing, Training & Support, About Us, and My Account. A 'Live Support OFFLINE' button is also present. The main content area is titled 'ActiveTick Platform Download Page' and includes a globe icon with a green arrow pointing down. Below this is a table of installation packages.

Installation Package	Version	Release Date
<a href="#">ActiveTick Platform</a> <i>Real-time streaming market data and trading platform for Windows-based computers</i>	2.1.1	08/15/2014
